PROFESSIONAL SUMMARY

Full-stack software engineer and M.S. Computer & Information Science candidate (GPA: 4.0) with hands-on experience shipping AI-powered products for early-stage startups. Delivered React, Flutter, FastAPI, and AWS features for startup products that stood out in competitive demo cohorts, reaching **50–100 real beta users**. AWS Certified Cloud Practitioner — seeking a junior software engineering role from day one.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Dart, SQL

Frontend: React, Next.js, Flutter, Tailwind CSS

Backend: FastAPI, Node.js, Express.js, RESTful APIs, tRPC

Cloud & Data: AWS (DynamoDB, S3), PostgreSQL, MongoDB

Tools: Git, GitHub, Docker, Linux

Practices: Agile/Scrum, Code Review, CI/CD, Unit Testing, RESTful API Design

PROFESSIONAL EXPERIENCE

PM Accelerator

AI Engineer Intern

Remote

May 2025 – Sep 2025

- Engineered Perio.AI's Flutter analysis views integrating OAuth, DynamoDB, S3, and RESTful APIs, helping Perio.AI earn recognition at Cohort 4's competitive demo day.
- Built React and FastAPI/AWS workflows for MyHandyAI's onboarding, AI summaries, and DIY guide features; product stood out in Cohort 5's demo and reached **50–100 real beta users**.
- Collaborated with PMs and designers in an **Agile sprint** environment, aligning feature delivery with demo milestones and iterating based on user feedback.

Akcepted Tech

Software Developer

Bengaluru, India

Nov 2023 – Jul 2024

- Built MERN-stack applications for the company website, internal products, and 2+ business clients as an early engineer at a seed-stage startup and founding team member.
- Designed a full-stack gas-agency platform serving ~150 customers and staff with real-time order tracking, admin dashboards, and customer-facing portals.
- Integrated Zoho Inventory API to automate cylinder stock, deposit, order, and return tracking—eliminating manual reconciliation and reducing weekly ops overhead.

Flyers Soft Private Limited

Frontend Developer Intern

Chennai, India

Feb 2023 – May 2023

- Delivered **5+ production-ready, reusable React components** from Figma designs across two client-facing projects, reducing design-to-code turnaround.
- Conducted systematic cross-device QA across Android and iOS viewports with senior engineers, resolving all flagged responsiveness defects prior to release.

PROJECTS

Meet.ai — AI Meeting Assistant | *Next.js, TypeScript, OpenAI, Stream, tRPC, PostgreSQL, Inngest*

- Architected a full-stack platform enabling users to create AI agents, launch live video meetings, and enable real-time agent participation, end-to-end from data layer to UI.
- Built an Inngest async pipeline for recording ingestion, automated transcription, AI-generated summaries, and persisted insights using Drizzle ORM and PostgreSQL.

SafeUI — API Safety Package | *React, Next.js, TypeScript, JavaScript*

- Built a reusable React/Next.js package standardizing API lifecycle management—timeouts, GET-only retries, network failures, and invalid JSON—reducing UI crash surface area.
- Designed plug-and-play TypeScript abstractions for Loading, Error, and Empty UI states with one-click retry, compatible across TypeScript and JavaScript projects.

EDUCATION

University of Michigan-Dearborn

Master of Science in Computer and Information Science

Dearborn, MI

Sep 2024 – May 2026

New Horizon College of Engineering

Bachelor of Engineering in Computer Science and Engineering

Bengaluru, India

Jul 2019 – May 2023

CERTIFICATIONS

AWS Certified Cloud Practitioner: Amazon Web Services | Jun 2026 – Jun 2029

Career Essentials in GitHub Professional Certificate: GitHub | Apr 2026
